

## Dr Sze Wey Lee

MBBS FRANZCOG

### Obstetrician and Gynaecologist

Dr Lee is a specialist obstetrician and gynaecologist practicing in the state of the art facilities in East Melbourne. With utmost standards of professionalism, she provides comprehensive care for her patients ranging from pre-pregnancy counseling and preparation for pregnancy; care before, during and after birth, breastfeeding advice as well as emotional and psychological support for the new mother.

Sze is also an experienced gynaecologist caring for women from adolescence to menopause as they face issues with their menstrual cycles, pelvic pain, PAP smears and menopausal symptoms. Sze is a skilled laparoscopic surgeon seeking the best outcome for each patient with minimally invasive surgery where indicated. Sze is committed to ensuring that each patient under her care is offered the most deserving of attention in the management of their situation, addressing any concerns and providing peace of mind.

Subspecialty interests include:

- High risk obstetrics (including breech births, twins and associated medical conditions)
- Menstrual disorder and pelvic pain
- Laparoscopic surgery for management of endometriosis
- Menopause and menopausal hormone therapy
