

Mr Daevyd Rodda

MBBS, Dip Surg Anat, FRACS, FAOrthA

Orthopaedic surgeon

Dr. Rodda graduated from Monash University in 2004 and trained in the field of Orthopaedics at some of the most prestigious hospitals in Melbourne. During this time, he was awarded an honorary fellowship at the University Of Melbourne Department of Anatomy. He received Fellowship of the Royal Australasian College of Surgeons and the Australian Orthopaedic Association in 2015. He has also completed additional post-fellowship training in various centres of excellence throughout Australia, Europe and North America, with a special focus on joint replacement surgery of the lower limb and sports knee injuries. Dr. Rodda is an experienced and high volume joint replacement surgeon. According to the Australian Joint Replacement Registry, he performs around 300 joint replacements per year.

He is very proud of his excellent outcomes on the Joint Replacement Registry, and is happy to discuss these with patients. Dr. Rodda is an expert in Anterior Minimally Invasive Total Hip Replacement surgery. He performs both primary and selected revision hip replacement surgery via the anterior approach.

Dr. Rodda is an instructor surgeon for anterior approach hip replacement and teaches this complex technique to surgeons throughout Australia. The primary focus for Daevyd and his team is delivering the highest quality surgical results with a caring and compassionate approach. Daevyd is actively involved in charity work in the indigenous community through his Sporting Chance Foundation.
