

Ms Claudia Di Bella

MD PhD FRACS FAOrthA

Orthopaedic Surgeon

Ms Claudia Di Bella works at St Vincent's Private Hospital Fitzroy.

Claudia is a specialist in the treatment of arthritis as well as bone and soft tissue tumors. She uses advanced robotic and navigation technologies, as well as 3D printing where required, to ensure maximum surgical precision and accuracy.

One of the few female orthopaedic surgeons in Australia, she believes in clear communication to ensure her patients have a full understanding of their condition and treatment options. All new referrals will be seen within 7 days.

Subspecialty interests include:

- Hip and knee joint replacement.
- Bone and soft tissue tumor (sarcoma)
- Orthobiologics (i.e. PRP injections)
