

## Mr Daniel Steiner

*MBBS(Hons) FRACS(Urology)*

### Urologist

We are delighted to introduce Mr Daniel Steiner at St Vincent's Private Hospital Werribee.

Daniel is consulting in rooms near to St Vincent's Private Hospital Werribee. Daniel also consults in Richmond, St Kilda East, Footscray, Bundoora, Lancefield, Point Cook and Epping.

Daniel is a urologist trained in all aspects of general Urological care. He also has received training on the daVinci Robot system in both Australia and USA and can offer Robotic Assisted Radical Prostatectomy for the treatment of localised Prostate Cancer.

Daniel has a strong interest in surgical research and surgical education. He has presented papers at numerous national and international meetings and has numerous publications in medical journals. Daniel also regularly lectures students from Melbourne University Medical School.

#### Subspecialty interests include:

- General Urology
- Advanced laparoscopic (key hole) procedures for the management of various urological disorders (benign & malignant)
- Minimally invasive kidney stone treatment (including PCNL for very large stones)
- Medical and surgical management of benign prostatic enlargement
