

## Mr Ivan Bhaskar

*MBBS MS MCh FRACS*

### Neurosurgeon

We are delighted to introduce Mr Ivan Bhaskar at St Vincent's Private Hospital Fitzroy.

Mr Bhaskar's consulting rooms are located near to St Vincent's Private Hospital Fitzroy, he also provides Neurosurgical services in Werribee, Bundoora, Box Hill, Mulgrave, Bacchus Marsh, Gisborne and Bendigo.

Ivan is a highly qualified Australian trained Neurosurgeon with a double degree in Neurosurgery. His areas of expertise include; brain tumours, benign (meningiomas, acoustic neuromas etc) and malignant (cancers such as Glioblastomas), vascular malformations (aneurysms, cavernous and AVMs), and hydrocephalus.

Ivan completed a fellowship in spine surgery and has gone on to train in Minimally Invasive Spine Surgery including endoscopic spine surgery. Other spine surgeries include treatment of disc prolapses, degenerative disc disease (which require fusion operations), fractures of the spine and all types of tumours of the spine.

After completing a Spine Fellowship; Ivan gained experience in keyhole spine surgeries utilising state of the art equipment for surgeries that aids in the management of back pain and complex spinal conditions. In addition to performing Robotic spinal surgeries, he has trained further to provide Endoscopic spine surgeries in selected cases. He has had extensive experience with complex Brain and Spinal surgery having worked for the last 15 years in this specialised field.

Subspecialty interests include:

- Keyhole spine surgery
