

## Dr Kylie McLachlan

*MBBS (Hons) FRACP MD*

### Endocrinology

Dr Kylie McLachlan works at St Vincent's Private Hospital Fitzroy.

Kylie graduated from Melbourne University in 1994. She completed her endocrinology training in 2001, based at St Vincent's and Monash Hospitals and then undertook an MD in a clinical study of gestational diabetes.

She currently has an appointment at the pituitary and diabetes clinics at St Vincent's Hospital Melbourne, is involved in research and teaches medical students.

Her special interests include pregnancy endocrine conditions, insulin pumps and pituitary disease but she is happy to see all areas of endocrinology.

She has admitting rights to St Vincent's Private Hospital Melbourne and other locations in Melbourne's East. She also consults at Hoppers Crossing.

Subspecialty interests include:

- Pituitary
- Pregnancy diabetes
- Diabetes
