

Dr Mitchell Chipman

Medical Oncologist & Palliative Care Physician

We are delighted to introduce Dr Mitchell Chipman at St Vincent's Private Hospital East Melbourne.

Mitchell's consulting rooms are located adjacent to St Vincent's Private Hospital East Melbourne.

Mitchell is a physician who specialises in medical oncology and palliative care. Clinical trials are a mainstay of cancer medicine and he is a keen participant in clinical research at VBOC.

Multidisciplinary care is central to his practice so enabling the best possible outcomes for all patients. Outside direct patient care he sits on a number of boards and committees including the Victorian Doctors Health Programme. He has previously been on medical regulation boards and participates actively with AHPRA in Victoria.

He is a lecturer in medicine at Monash University where he did his basic training.

Subspecialty interests include:

- Breast cancer
- Prostate cancer
- Bowel cancer
- Lymphoma
- Cancers complicating chronic HIV infection
