

Mr James Stoney

MBBS , BMedSci, FRACS

Orthopaedic Surgery

James has been in practice for 15 years after initially training in Melbourne and then spending a 18 months in Bristol, UK completing an advanced training in hip and knee surgery.

His main area of expertise is surgery of the hip and knee with a special interest in joint replacement. James routinely performs primary and revision hip and knee replacement and has an evolving interest in computer assisted knee replacement and robot assisted uni-compartmental knee joint replacement.

Mr Stoney offers the full spectrum of treatment for other knee and hip conditions such as knee ligament reconstruction, hip and knee arthroscopy and patellofemoral disorders.

He remains actively involved in research and is currently an Assistant Deputy Director of the Australian National Joint Replacement Registry.

James is married with 3 children, loves his gourmet food as well as the occasional game of golf!

Subspecialty interests include:

- Hip and knee Surgery
