

## Dr Mei Tan

*MB BCh BAO, PhD, FRCOphth, FRANZCO*

### Ophthalmologist

We are delighted to introduce Dr Mei Tan at St Vincent's Private Hospital Kew.

Mei is a fellowship-trained vitreo-retinal surgeon and medical retina specialist. Her special interests include the treatment of retinal detachments, macular holes, epiretinal membranes, macular and vitreous haemorrhage, diabetic retinopathy, macular degeneration, retinal vein occlusions and inherited eye diseases. She also holds a PhD in genetics and gene therapy. She is an experienced cataract surgeon and is involved in the training of junior eye doctors. She offers treatment in both private and public hospitals, and is available for urgent referrals. She is a fellow of the Royal Australian and New Zealand College of Ophthalmologists, a member of the American Academy of Ophthalmology, the American Society of Retina Specialists and a fellow of the Royal College of Ophthalmologists, UK.

In addition to consulting at St Vincent's Private Hospital Kew, Mei also consults privately at Specialist Eye Surgeons at Moonee Ponds and Broadmeadows, and North Balwyn Eye and Laser Centre.

Subspecialty interests include:

- Vitreo-retinal surgery
- Cataract surgery
- Epiretinal membrane, macular hole, myopia
- Diabetic retinopathy
- Age-related macular degeneration
